We can print custom sizes not shown on the chart up to 44" on either the width or the length. Prices are **\$0.75 cents per square inch** and are calculated as follows:

For example a 16" x 20" print:

- 1) Multiply 16" x 20" = 320 sq. inches
- 2) Multiply 320 x **\$0.75** = \$240

The total for the print is \$240 which includes a canvas Gicleé print AND hand-embellishing by the artist. All hand-embellished prints are embellished and signed by the Darryl Vlasak himself. Foam core, mounting/stretching, framing, shipping, and sales tax, etc. are in addition to the cost of the print. Please inquire with questions.
